The proposed service will establish a noncommercial, listener supported, educational radio station. Education Media Foundation ("EMF") is a non-profit, non-stock corporation organized to own and operate educational broadcast stations. It is the licensee of KLVR(FM-ED), Santa Rosa, California. As it is already the licensee of a non-commercial, educational facility, its qualifications to be the licensee of another such facility are evident. EMF will continue its educational mission through the broadcast of programming on KRDG much the same as that already broadcast on KLVR.

EMF's objective will be to provide area residents with programming designed to meet community needs. Community needs will be determined by establishment of an ongoing ascertainment program.

A unique blend of music, programs, and special features will endeavor to educate our audience on the importance of positive, wholesome, family and Judaic-Christian values, good citizenship, high moral standards, and community involvement.

Request For Waiver of Main Studio Rule

EMF hereby requests a waiver of 47 C.F.R. § 73.1125(a) (1990) (hereinafter "main studio rule") to allow KRDG (AM) Redding, California to operate its main studio with a reduced staff presence. If this waiver request is granted, KRDG would be operated as a satellite of co-owned KLVR (FM-ED) Santa Rosa, California.

EMF desires to operate KRDG as a non-commercial, educational station. A grant of this waiver would permit EMF to offer a higher quality educational radio service to Redding than would be possible were EMF required to program KRDG from a main studio located in Redding.

In order to fulfill its local program service responsibilities, EMF will incorporate into its public affairs and informational programming originated on KLVR (FM-ED) programming of unique concern to residents of Redding and will maintain a studio in Redding capable of producing locally-oriented programming. EMF will maintain KRDG's public inspection file in Redding in a location accessible during normal business hours. It will also provide a toll-free telephone number for residents of Redding to reach KRDG's studio in Santa Rosa. EMF will staff KRDG's Redding studio at least two days of each week and will publicize the days and times at which the Redding studio will be staffed.

In that EMF's proposed operation conforms with standards established by previous Commission waiver grants for non-commercial, educational applicants, EMF submits that a grant of its waiver request would be in the public interest and should therefore be granted.

Re: KRDG (AM) Redding, California
Request for (1) Non-commercial Educational
Broadcast Construction Permit; and (2) Waiver
of Main Studio Rule

Dear Ms. Searcy:

Educational Media Foundation, Inc. ("EMF"), by its attorneys, submits this application for a non-commercial educational broadcast station construction permit. On September 12, 1991 (File no. BAL 910802EF), the Commission granted the assignment of KRDG from Prather-Breck Broadcasting to EMF. As EMF desires to operate KRDG as a non-commercial, educational station, subject to the rules relating to such stations, this Form 340 application is being filed. In addition, EMF hereby requests a waiver of 47 C.F.R. § 73.1125(a) (1990) (hereinafter "main studio rule") to allow KRDG(AM) Redding, California to operate its main studio with a reduced staff presence. If this waiver request is granted, KRDG would be operated as a satellite of KLVR(FM-ED) Santa Rosa, California. EMF is licensee of KLVR(FM-ED) which operates as a non-commercial, listener supported, educational radio station. As a satellite of KLVR(FM-ED), KRDG would provide Redding, California with a unique blend of music, programs, and special features, that will serve the educational purposes which have already been recognized by the Commission in connection with KLVR(FM-ED), and which are set out herein.

The Commission has established a policy of considering waiver requests of the main studio rule by non-commercial stations on a case-by-case basis. See Main Studio and Program Origination Rules, 3 FCC Rcd 5024, 5026 (1988). The Commission's policy is a recognition of "the benefits of centralized operations for non-commercial educational stations, given the limited funding available to these stations." Id. "Waivers have been granted to state and public television networks to operate "satellite" stations that do not necessarily meet the requirements of the main studio rule." Id. See e.g. Nebraska Educational Television Commission, 4 RR 2d 771 (1965); Central Virginia Educational Television Corp., 49 RR 2d 435 (1981). Recently, where the benefits of centralized broadcast operations were demonstrated by an educational applicant, the Commission granted a waiver of the main studio rule and permitted a non-commercial AM station to co-locate its main studio with another station operated by the applicant. The waiver request proposed that the non-commercial AM would be operated as a "satellite" of the applicant's other facility. See Letter to Gerald Stevens-Kittner, Esq. re KAGI (AM), Grants Pass, Oregon (File No. BAL-910226EC) (M.M.Bur. July 15, 1991) (copy attached hereto). The waiver was conditioned upon the applicant maintaining the public file in the non-commercial AM's city of license; the installation of a toll-free telephone number for residents of the city of license; and an imposition of a condition that the AM license remain non-commercial. Id.

EMF is in a similar position to those educational applicants who have been granted waivers of the main studio rule. In this case, EMF seeks a waiver of the main studio rule to operate KRDG as a non-commercial educational satellite, principally retransmitting KLVR(FM-ED)'s programming over KRDG. A grant of this waiver would permit EMF to offer a higher quality educational radio service to Redding than would be possible were EMF required to program KRDG from a main studio located in Redding. Educational programming requires a significant staffing commitment to produce quality programming. As a private, non-commercial educational broadcaster, EMF's limited resources would preclude the staffing and full-time operation of a main studio in Redding, without an economic drain which could damage the quality of programming it produces in Santa Rosa.^{1/}

^{1/} The Commission has never created a distinction between "public" and "private" educational noncommercial operations. Private educational broadcasters, such as EMF, face stiffer economic realities than state or public broadcasters who benefit from public monies. EMF, on the other hand, is supported only by donors and programming grants, and does not otherwise receive governmental or institutional support.

Ms. Donna R. Searcy
November 21, 1991
Page 3

Moreover, the history of KRDG does not bade well for a separate, fully staffed operation at this time. EMF is acquiring KRDG from a company which, EMF understands, during the course of its operation of the station, suffered losses totaling Two-Hundred Fifty-Thousand dollars (\$250,000.00). As was set forth in the contract accompanying the assignment application, EMF essentially purchased KRDG for less than \$50,000, a sum which is to be paid to creditors of the licensee. Given this financial history, it is clearly not economically reasonable for EMF to attempt a full scale operation of this stand-alone AM station.

In order to fulfill its local program service responsibilities, EMF will incorporate into its public affairs and informational programming matters of unique concern to residents of Redding and will maintain a studio in Redding capable of producing locally-oriented programming. EMF will maintain KRDG's public inspection file in Redding in a location accessible during normal business hours. It will also provide a toll-free telephone number for residents of Redding to reach KLVR's studio in Santa Rosa.

Moreover, EMF recognizes the importance of a licensee's remaining aware of community concerns and being accessible to local residents on a face-to-face basis. Thus, EMF plans to have employees in Redding on a regular basis to access community needs. In connection with its recognition of these obligations, EMF will staff KRDG's Redding studio at least two days of each week and will publicize the days and times at which the Redding studio will be staffed.

In that EMF's proposed operation conforms with standards established by previous Commission waiver grants for non-commercial, educational applicants, EMF submits that a grant of its waiver request would be in the public interest and should therefore be granted.

As EMF is an educational licensee, no filing fee is necessary. Therefore, none is submitted.

Should there be any questions concerning this matter, please contact the undersigned.

Sincerely,

David D. Okenford

The proposed service will establish a noncommercial, listener supported, educational radio station. Education Media Foundation ("EMF") is a non-profit, non-stock corporation organized to own and operate educational broadcast stations. It is the licensee of KLVR(FM-ED), Santa Rosa, California. As it is already the licensee of a non-commercial, educational facility, its qualifications to be the licensee of another such facility are evident. EMF will continue its educational mission through the broadcast of programming on KRDG much the same as that already broadcast on KLVR.

EMF's objective will be to provide area residents with programming designed to meet community needs. Community needs will be determined by establishment of an ongoing ascertainment program.

A unique blend of music, programs, and special features will endeavor to educate our audience on the importance of positive, wholesome, family and Judaic-Christian values, good citizenship, high moral standards, and community involvement.

Request For Waiver of Main Studio Rule

EMF hereby requests a waiver of 47 C.F.R. § 73.1125(a) (1990) (hereinafter "main studio rule") to allow KRDG (AM) Redding, California to operate its main studio with a reduced staff presence. If this waiver request is granted, KRDG would be operated as a satellite of co-owned KLVR (FM-ED) Santa Rosa, California.

EMF desires to operate KRDG as a non-commercial, educational station. A grant of this waiver would permit EMF to offer a higher quality educational radio service to Redding than would be possible were EMF required to program KRDG from a main studio located in Redding.

In order to fulfill its local program service responsibilities, EMF will incorporate into its public affairs and informational programming originated on KLVR (FM-ED) programming of unique concern to residents of Redding and will maintain a studio in Redding capable of producing locally-oriented programming. EMF will maintain KRDG's public inspection file in Redding in a location accessible during normal business hours. It will also provide a toll-free telephone number for residents of Redding to reach KRDG's studio in Santa Rosa. EMF will staff KRDG's Redding studio at least two days of each week and will publicize the days and times at which the Redding studio will be staffed.

In that EMF's proposed operation conforms with standards established by previous Commission waiver grants for non-commercial, educational applicants, EMF submits that a grant of its waiver request would be in the public interest and should therefore be granted.

Dear Ms. Searcy:

On behalf of Educational Media Foundation ("EMF"), request is hereby made to extend the date by which it is required to consummate the voluntary assignment of the license of the above-referenced station from Parther-Breck Broadcasting, Inc. of Redding to EMF until June 22, 1992. On February 20, 1992, March 20, 1992 and April 20, 1992, we filed requests to extend the consummation date, which requests were granted by the Commission. The Seller is still attempting to cause the liens on the station assets to be removed from record. Pursuant to the purchase agreement between EMF and the Seller, the Seller is required to convey the assets to EMF on the closing date free and clear of all liens.

EMF certifies that no reportable changes have occurred in the representations and warranties or the factual statements contained in the parties' application for Commission consent.
